For Belleville Rotarians and the city. For Belleville Rotarians and the city-itzelf it was the good word they heard recently by way of a letter from Dale Lumley who with fellow South African Sonja Johnson returned to Natal recently ter a year at school here.

In a letter to her "favorite Rotary Club in my favorite city," Miss Lumley said Christmas here was "a nice close to the most beautiful year of my life."

In a passage directed to Australians
Deborah Charters and Rosemary Downs,
now here on exchange, she wrote: "Canadians are really fantastic people and your
host club the nicest you can wish for."

These are compliments indeed for Belleville, especially considering that the South African girls travelled to the west coast and back while they were here. Miss Lumley noted that she had started university in Durban and is studying English and psychology. She gave further expression to her fondness for this country when she said she would like ultimately to go into the travel business and return to Canada.

Travel of course can be a traumatic ce. Certainly it broadens our horins and outlook so that we are never really zons and outlook so that we are never they the same again. For a while it can upset our entire rhythm but ultimately it jells into a whole that is nothing if not something of value. Believille students Ifin Acton and Peter Cox are enjoying the same kind of experience in South Africa and the latter has written glowingly of the outdoor scene in particular there.

It is a pity more of us cannot be afforded such opportunities, especially in the early, formative years.

## Police Salaries

The thing that caught our eye, almost as much as the 16 per cent pay increase over two years for the Belleville police in recent contract negotiations, was the stratified nature of the force.

Sergeants, detectives, inspectors and a Sergeants, detectives, inspectors and a chief..., yes we expect these but we wonder what does it do for morale and efficiency when there are no fewer than four cate-gories of constable, starting with probation-ary and continuing all the way through third and second class to first class constables.

third and second class to .imis constables.

Of course right with the problem it is all right with the potice it is all right with us—table hierarchal problem is all with the problem in the class of constables things might not be more sensible if they were simply all policemen together. After all, they are in the business of keeping law and order and each of them faces the same risk. As for the sating increase bits proposed to the problem in the constable problem in the constable problem in the long-term we cannot say, for no one-including the economistia, seems to know at law for the constable problem in the constable problem is the constable problem. The problem is the constable problem is the constable problem in the constable problem is the constable problem in the constable problem is the constable problem in the constable problem in the constable problem is the constable problem in the constable problem in the constable problem in the constable problem in the constable problem is the constable problem in the constable proble third and second class to first constables.

The constables is a second class to first we be a second contable things night not be more issuited by the second contable things night not be more issuited for they were among a basic constable the second contable things night not be more issuited for the were among the basic constable the second contable things night not be more issued for well as the second contable things night not be more issued for the west of the second contable things night not be more issued for the west of the second contable things night not be more instable than the second contable that the second contable that is a second contable that the second contable that is a second to the second contable that is a seco

# Before you invest hundreds of dollars in any encyclopedia, invest 49¢ in a New Funk & Wagnalls.

Before you buy anything as important as an encyclopedia, you should take it home and live with it for a while.

But the only way you can do that with most encyclopedias is by buying the entire set. Not with the Funk & Wagnalls New Encyclopedia.

Come in and buy the first volume for only 49t. If you like it, you can buy the remaining 26 volumes (including index and bibliography), a volume or two a week. For only \$1.99 each.

Naturally, this makes buying an encyclopedia easier. It also makes not buying it easier. When you sell an encyclopedia this way, it has to be good enough to keep people coming back for more. It is.

The Funk & Wagnalls New Encyclopedia is the work of over 500 scholars, including many Pulitzer and Nobel Prize winners.

It has over 7,000 illustrations—including a full-color World Atlas. It's bound in sturdy, elegant covers to resist the ravages of time and children. It's not only thoroughly up-to-date, but provisions have been made for you to

It's not only thoroughly up-to-date, but provisions have been made for you to keep it that way. Funk & Wagnalls publishes annual yearbooks which you can buy to keep your set as new as it is now.

It's written in clear, simple English. (The Funk & Wagnalls is a family encyclopedia. It's designed to help children keep up with schoolwork, and parents keep up with children.)

And it contains as many indexed entries as encyclopedias costing hundreds of dollars more.

In fact, the only thing you don't get with the Funk & Wagnalls is a salesman. It's sold direct to you through us.

So come in and try a little low-pressure salesmanship on yourself.

If the salesman in you wins, the consumer in you

will be richer for it.

Political talk had a personal touch in this chat has night between Secretary of State Hugh Faulkner (right) and leading Hastings riding Liberals Robert Temple, (ett) and Frank Follwell. Both local politicals campaigned in the 1890s for federal minister's grandfather, Bellevillan Dr. J. A. Faulkner who became Ontain health minister. Mr. Faulkner, whose father also was a Belleville physician, spoke to party riding associa-tion at Queen Mary School.

NAMED ASSISTANT
ST. LOUIS (AP)—St. Louis
Blues of the National Hockey
League announced the appointment Friday of veteran deferceman Bob McCord as assistant
to head coach Jean-Guy Talbot.

# IMPORTANT ANNOUNCEMENT

# THERE IS NOW A BETTER REASON TO RETURN ALL REFILLABLE BOTTLES!

Effective immediately, the bottle deposit on 6½, 7 and 10 ounce bottles has been increased from 2' to 5' and the 26 ounce and larger size bottles are now, worth 10' instead of 5'. Only the bottle deposit has increased, not the price of the beverage!

Why? Two good reasons; first we can use those good refillable bottles again and again — thereby helping us keep the cost of our products as low as possible; and secondly we wish to encaurage Canadians everywhere to make a really positive contribution to Canada's environment by bringing all refillable bottles back to the store.

We sincerely hope you will support this decision in the same positive attitude in which it was taken.

#### Poverty

The indignities and humiliations to which the poor at home and abroad — and particularly abroad — are subjected have surely never been more poignantly or stark-ly expressed as in the picture The Intelli-gencer ran on its front page recently.

The picture shows a small boy lying in a cobbled street in Saigon. Beside him is his infant sister and she is lying in a make-— a battered An n C-rations container. Shown also is a plastic cup for money from passersby. There is no sign of parents and, given the circumstances of Victnam in recent years, there is no guaran-tee even that they are alive. It might be spected of course that the parents are in-ed alive and have simply shunted the boy off with his baby sister to evoke sympathy and solicit funds. But whichever is the case it is still a terrible commentary, not only on the Vietnamese situation, but on human

We know there are many organiz such as Foster Parents' Plan and CARE, which try to alleviate this kind of suffering. They perform a great work, but there must be countless other children, like this pair in Saigon, who are simply left to fend for

themselves.

How can we reconcile the affluence of the western world (and not forgetting many go hungry enough in our own midst too) with the awesome neglect and deprivation manifested by the status of these two youngsters (and how many others like them?) In Galance of the control of the co

Salgon?

Sad to say there is no adequate answer, but many of us are left at least with the desire to help, through such regulatations as we have mentioned:

as we have mentioned as we have mentioned the same than the provided left of British Columbia has taker a commendable step. It is sending an inestigation team to Vietnam to find out what services are needed there for the health care and rehabilitation of orthographs. The legislature is being asked to approve a cash gift of \$2.25 million for this purpose cash gift of \$2.28 million for tins purpose and an appeal to the people of the province is also contemplated. Dr. John Wong, a Singapore - born' medical consultant, now of Toronto, is heading the investigation which also has the support of the B.C. Medical Association, and involves children in both North and South Yletnam.

# Canada's Immigration Regulations have changed.

As of January 1, 1973-all visitors coming to Canada must have an Employment Visa if they intend to work here, or be registered with an Immigration Officer if they intend to visit more than three months.

Those who arrived before January 1, 1973 have until March 31, 1973 to register at a Canada Immigration Centre if they plan to stay beyond March 31. Some will already have legal permission to work here, or stay more than three months. They needn't register until this authorization is to expire.

#### Exemptions

All Canadian citizens and landed immigrants are, of course, exempt.

All diplomats and visiting Armed Forces personnel performing official duties here are exempt.

Foreign newsmen, visiting businessmen, clergymen, and professional athletes don't need an Employment Visa, but they must register to stay here more than three months.

There are other exemptions: full details are available at any Canada Immigration Centre.

#### Coming to Canada to work?

Visitors will not be allowed

admission to Canada to search for work.

Arrangements for an Employment Visa for a foreign worker can best be made in Canada by the Canadian employer. He should contact the nearest Canada Manpower Centre, which will determine whether Canadian workers are available for the job. The Employment Visa will only be issued if no qualified Canadian citizen or landed immigrant is available.

#### Penalties

Any violation of the new regulations is an offence, and could result in a fine of up to \$500, and/or imprisonment up to six months, and removal from Canada.

#### Summary

From now on, all visitors must have an Employment Visa to work in Canada: or be registered with an Immigration. Officer if they intend to stay here more than three months.

## You stopped drinking milk to prove you were grown up. Now read why it's time to start drinking milk again

Do you know what nutrition experts call milk? They call it "Nature's most nearly perfect food." And on one thing they agree: you never outgrow your need for milk. Now, read the facts behind these two strong statements.

Five nutrients which help maintain your good health: Milk is an excellent source of all five.

Of all IVCs.

I. Calcium. If you thought calcium was needed by children to help grow normal bones and teeth, you were right. Except that the need for calcium doen it stop with physical growth.

The fact is that calcium is very much a factor in the davelogal maintenance of adult bones and teeth. And "adult bones and teeth" mean

2. Ribuffavin. Riboffavin is one of the B. Vi-tamins, and is also a factor in the maintenance of vour good braith. Which is why you, as an adult; should make sure your diet includes ade-quate riboffavin.

Milk is an excellent source of riboff.

3. Protein. We need hardly emphasize that high quadro protein is a health factor. But did you know that MILKs an excellent dietary source of high quality protein. Well, it is So there's one more reason for you to drink mill every day?

4. Vicaniin A. This vicaniin is a factor in the maintenance officialth in general. Whole mile is an excellent source of Vicaniia. A lone the use of the word whole? "Vicaniia. As it is to when milk in shommed... a fact which may make skim milk use the best choice for you. More about.

5. Phosphorus. No. it doesn't make you in the dark. Yes, it is (nagether with cale a factor in the formarion and maintenan bone. And guess what delicious beverage excellent source of phosphorus.' Thur's calls.'

Section Remember wells is not only an earliest directory source of solutions, but it from phore notioness, two. Jaid it procedure there is no by an investment completion and pollutionable from R there's but measure consequence to drank milk

a good example.

Well, "monkey see, monkey do". A house where adults drink milk regularly is a house where children drink it too...and not just be-cause Mother coaxes them to do so.

The best way to keep your children drinki ilk, then, is to be seen drinking it yours

Evers dar! Your children will quickly pick up the idea that milli sign't just a "kids-only" drink, to be abundoned as soon as they hit their trens. And that idea will help maintain their good health throughout their whole lives.

The "oncoffee" habit

Watch your own children and see this fiscory in action. A coung child who gets anger at his parents often picks on milk as a substitute "punching bag". He may hurl his bottle out of his crib, knock his glass over, even spit up milk that he has drunk.

When he is older and anxious to seem grown up, he (or she) may go through a phase of reject-ing milk as being "kid stuff".

ting mist as being "held staff". And a young person who rejects milk long enough; and hard enough, becomes an adult who has got out of the habit of drinking it.

Well, that's a pix; Become as you have be note; we also have be note; not one well not not the though milk one prounds. You never out? that you never out? The your need for mell.

## Milk myth #1: "Milk is fattening".

Face it: any fued must be fattering. So the vital question is, what noticers value do your receive with the calories you consume.

You might for instance, fire on the colater cake at around. 190 calories a servine, and get virtually no other noticers calories. O you can choose food that are noncribing relative to their calorie content. And milk in an outstanding extangle of soft is dood.

## Eenie, meenie, minie, m which type for you?

milk. This is just whole milk which has had its natural cream mixed evenly ("homo-genized") through it, instead of being left to rise to the rop. Its burterfar is about 195%.

"2". This is milk which has had pure of its natural cream dimmed off it. Its butterfar con-tent, therefore, is slightly lower than that of whole milk...2%, instead of .P2% or so.

Skins milk. All of the natural cream has been removed. A word of advice: when the cream is skinmered off milk, the Viranira A gues 100. So if two choose skim milk, make sure vots ger sufficient Viranira A from your other food choices.

re lateries the observation of them area's nad with milk! No, it does not. It just means fast up such drink made with home milk is nark d' Chocolate Mili ... and the same drink nade with ..." milk is marked "Chocolate

Drief". Take your pick, they're both delicious and good for you!

#### Milk: the food nobody outgrows. Including you.

Whatever reasons made you give up milk, the time has come for you to start drinking it again ...at least once a day.

at seast once a day.

Because milk is not, very definitely not, just a child's drink. Remember, nutritionists call it "Nature's most nearly perfect food."

And that makes it just too much of a good thing to pass up. And not only for nutritional reasons, either.

#### One thing more.

Maybe you hardly ever drink a glass of min any more. Maybe you don't really rememb how deficious milk is. How cold, How bubbl How smooth, How sweet and subtle and whole some it tastes.

Have you forgotten all that? Then have a glass right now.

# It'll guide you through the new tax form

In the blue pages of the new tax guide are six steps which explain how to fill in your form. I suggest that if you follow the steps carefully, chances are you'll get it right. But if you still have a problem, and it isn't solved in the detailed part of the guide, call or go to your District Taxation Office.

For more help, visit or simply call your District Taxation Office. If it's long distance, dial the operator and ask for ZENITH 04000 (it's free).

MIRACLE FOOD MART'S NEW "CONSUMER BILL OF RIGHTS"

# Miracle Food Mart Never Stops Trying To Be Better

One of the most satisfying things that has happened since I became executed with Mirecke Food Mart as its Consumer Ariskor, is the amountement today of its Consumer Bill of Rights.

I have been listening to your comments and suggestions through personal conversations, letters and "phone cells, and the Consumer Bill of Rights is management's answer to the needle you have expressed.

hits is managed.

I hope you will read the Consumer Bill of hits as a thoughtful consumer, and take full entage of the benefits it can bring to your pping and meal planning responsibilities.

## What Price Inflation?

We are all familiar with the findings of the Auditor-General. Year after year Max-well Henderson presents us with chapter and verse — "horrible stories," as one news-

and wrne — "horrible stories," as one sieva-paper headlines them — on the subject of Government inepitiade and extrawagance. For years we have heard of the millions thrown away on dubbous defence projects, going back to the time of the Arrow jet righter and the Bonare missile and on up to the debacle browing the situral carrier Bonaremiture. And there was that hydrofoll Rest vessel which everyone, including the Americans, reportedly was interested in, only for the project to be suddenly discontinued. Val D'Or, as we recall, was the name of the ver 10 UT, as we recall, was the name of the vessel and there were pictures of it on test runs in Hallfax harbor.

Then again we hear of the funds which

the Government, through the Canada Coun-cil, dispenses to all and sundry in the sphere of the Arts. These we know are vital to the overall health of the Canadian mosale, but there have been times when the Council has

there have been times when the Council has been carried away and has given its (tax-payer) bountly to individuals and groups and institutes of very doubtful worth indeed. And what about our friends in the bouncary? As Others corresponded to the council of being a Government machinary can be very grallying indeed. So what price inflation? Here are some of the reasons for this condition; yet we know we can wax as indigenant as we like—and might as not for this condition; yet we know we can wax as indigenant as we like—and might as not for this condition; yet we know we can wax as indigenant as we like—the conduction of the reasons for this condition; yet we know when the conduction of the work of the way was not full well be done about 11 in Otlaws.

prices start at \$2245\*. There are a few economy cars that seem to cost \$70 or \$80 less But take a look at the features Datsun includes for that price. Like reclining front bucket seats. Front disc brakes, Rear window delogger. High capacity 2-speed heater/defroster.

In the long run - when you include all your operating. maintenance and depreciation costs - the Datsun 1200 could end up costing you less to own.

Before you buy an economy car. Datsun thinks you owe it to vourself to check out all the good values on the market. Read the consumer and trade magazines. Talk to Datsun owners. Then, test drive a Datsun 1200.

You may come to the same conclusion thousands and thousands of Canadians have. Datsun 1200 gives you all the car you really need. And all the savings you really expect.

came Nov. 3, just four days after the federal election. In the aftermath of a campaign which featured criticism of immigration rules, a cabinet order abuntly revoked a clause of the 1897 Immigration Act that permitted visitors to apply for immigrant status here. More permanent revision of

the government's legislative timetable.

In Quebec the debate in the last few months has centred on the plight of emigrants from the Caribbean island of

on the pages or emigrants from the Caribbean island of Haiti.

At issue are both the effect of federal policy on one of the few sources of French-speaking immigrants and complaints that stranded Haitians face political retribution from the dictatorable at home. While immigration is constitutionally a federal domain, Quebec immigration idinister Jean Bienvenue has tapped lightly on Ottawa's door with a plea on behalf of the estimated 12,000 Haltians in the

The Nov. 3 declaration of fected an estimated 20,000 to 300,000 elaitors who had not filed applications for immigrant status but half taken advantage of the act's defunct visitor clause to burn that bridges and set up new homes

The new procedure required them to return home to apply for landed immigrant status but they were teased with hints from the immigration department that the old via-fine clause may be reinstated if it is possible to tighten regulations musign.

#### Industrial Drive

Belleville's new Industrial Commission is beginning to jell more effectively as a working unit after an uncertain start last month when members new on the scene grappled with the mechanics of their job.

The establishment of committees and the basis members will undertake is still in the formative stages, but there is satisfac-tion in the fact that an overall goal of 100 new jobs and another half million dollars of city assessment has been established for

1978. This is the first time the Commission, as the surging of its directors, has set surging of its directors, has set surging on the directors of the commission chairman Brions Richaron of Corty's actions and opposed on the commission of the commission of the setting of a goal affords some encousary incentive. If the Commission is not thinkurgin of the set of the commission is not thinkurgin of the set of the commission is not thinkurgin of the set of the commission is not thinkurgin of the set of the commission is not thinkurgin of the set of the commission is not the commission of the commission in the commission of the commission

There are high hopes of positive results from the greater involvement of members through committee work, atmed for example at closer co-operation with City Council in bodges preparation as well as matters affecting pricting of laoid and seconomic incentives to new industry.

It is a good start and we hope the plane for which there is so much hope bear runt; if the industry is not always and the plane of t

nose. Up in the living room there are new silencing devices all over the place. New seals, new padding. In fact from the hood pad to the trunk liner there is so much sound insulation, your life is bound to be a lot quieter.

Monaco/Polara

If you really have a bug about quietness, Charger SE (that stands for Special Edition) has a standard package that in anybody's language could only be called 'super-quiet.

We've built quietness into every Dodge.
But that's not all.

We've come up with a pretty impressive list of standard features too.

Consider the new

it's our most economical accommodation It's our most economical account notation especially with our mary discount fare plans. Yet, CN coach travel is as comfortable and convenient as can be. And perfect for families. With big roomy seats, wide asises and picture windows. Snacks and beverages at reasonable prices

Take it nice and easy. Take a CN coach.
On any of our trains throughout Canada.
Travel when the fares are lower.

All I takes is a little planning.

And all that means is checking a CN Red, White&
Blue lares calendar to make sure you go on the
opht day. A Red Bargain Day, when the cost of
CN train travel is lowest. And at this
time of the year, there are lots of
those around.

Think about it. If you plan, you saw!

How long Think about it. If you plan, you save!

# But which one is the best buy?

Dateur 1200 prices start at \$2245\*.

There are a few economy cars that seem to cost \$70 or \$80 less. But take a look at the features Datsun includes for that price, Like reclining front bucket seats. Front disc brakes. Rear window defogger. High capacity 2-speed heater/defroster. And much more.

In the long run — when you include all your operating, maintenance and depreciation costs — the Datsun 1200 could end up costing you less to own.

Before you buy an economy car. Datsun thinks you owe it to yourself to check out all the good values on the market. Read the consumer and trade magazines. Talk to Datsun owners. Then, test drive a Datsun 1200.

You may come to the same conclusion thousands and thousands of Canadians have. Datsun 1200 gives you all the car you really need. And all the savings you really expect.

PDateur 1200 seden: \$2245. Suggested retail price F.O.B. Vancouver, Toronto.

Dear John

I treasure those hours we spent watching shaky, ghosty, fuzzy TV. But I've met someone new. He has a new Zenith Color TV!

Now I see what we've been missing. Crisp, Clear Color.

I say it's fate.

He says it's design . . Zenith's unsurpar or TV design know how. Our picture could have been different. If only you'd seen Circle TV's outstanding line of Zenith Color Televisions.

Meet you at Circle TV, Quinte Mall, Marsha.

# Bill 246 The Anti-Denturist Act

BILL, 246 "An Act to Frovide for the Licensing and Fractice of Denture Therapists" passed in December of last year during the closing hours, of the last session of the Ontario Legislature, but not proclaimed, (although proclamation is expected around the middle of May) purports to have as its grimary objective the evention of a new category of dental health worker. The Bill is, however, the opinion of both the members of the Denturist Society and the wast majority of members of the public, nothing more than a device to eliminate denturists.

# A CONTRADICTION IN TERMS

A CONTRADICTION IN TERMS
The Bill 246 implies that the denturenspit is a professional who must "show knowledge, skill or judgment in the professional core of a part of the professional core of a part who is or partial artificial directure. It makes the denture therapit timble to an action for negligence or malpractice up to a period of two years from the town when such "professional" services are terminated. # Canada's Immigration Regulations have changed.

As of January 1, 1973-all visitors coming to Canada must have an Employ-ment Visa if they intend to work here, or be registered with an Immigration Officer if they intend to visit more than three months

Those who arrived before January 1, 1973 have until March 31, 1973 to register at a Canada Immigration Centre if they plan to stay beyond March 31. Some will already have legal permission to work here, or stay more than three months. They needn't register until this authorization is to expire.

### Exemptions

All Canadian citizens and landed nigrants are, of course, exempt.

All diplomats and visiting Armed Forces personnel performing official duties here are exempt.

Foreign newsmen, visiting business men, clergymen, and professional athletes don't need an Employment Visa, but they must register to stay here more than three months.

There are other exemptions: full details are available at any Canada Immigration Centre.

### Coming to Canada to work?

Visitors will not be allowed

admission to Canada to search for work.

Arrangements for an Employment Visa for a foreign worker can best be made in Canada by the Canadian employer, He should contact the nearest Canada Manpower Centre, which will determ whether Canadian workers are available for the job. The Employment Visa will only be issued if no qualified Canadian citizen or landed immigrant is available.

### **Penalties**

Any violation of the new regulations is an offence, and could result in a fine of up to \$500, and/or imprisonment up to soc months, and removal from Canada.

### Summary

From now on, all visitors must have an Employment Visa to work in Canada; or be registered with an Immigration Officer if they intend to stay here more than three months.

who say way.

All of these nutrients are factors in the main-tenance of good health—months a zelf or in-cludes. So you can see what a role mild play-sin helping you to maintain a halapred dier; intered, no other commonly acailable food jup-pliers to many nutrients.

How can you get more milk into your daily diet? Here are some ideas to get you started.

But "drinking it" doesn't mean just plain. Make hot rocoa, cold milk drinks, millshakes, eggnogs...try flavouring milk with vanilla, maple syrup or brown sugar. You'll find lots

# If the carton says, "Chocolate Drink," does this mean it isn't

If you see a carron labelled "Chocolare brook" this tells you that its contents are "S-ill, flayoused with chocolate: If the earon

label says "Chocolate Milk," it means that it contents are whole (homogenized) milk sim lark flavoured. Both Chocolate Milk and Cho-olate Druk are in fact milk drinks...and bot are equally good for you.

#### Isn't milk too fattening for an adult to drink every day?

#### The value of milk-for you: no, you haven't outgro the need for it.

Dath right; no never outgrow your used for nills. As long as you live, your body goes of anintaining itself—your bones, your teeth, your erroses system, your general health. This work over not stop with the constion of physical country.

So get back into the daily habit of drinking milk. It will pay off, and pay off healthily, for the rest of your life.

At this time last year it looked like a look cause.

The general opinion was that only a whorat now leader might poil it out of his shamp. And there was nobody of real stature.

Now the party has above that it can do kings on its own and a leader who can perform minacetes is possibly not all that important.

This could mean a new This.

A good many people; for ex-ample, have considered James Bullbrook of Sarnia as perhapa the best potential leader in the cascus, but along with this have held that he probably didn't have the strength to really boost the party.

# Have you claimed your credit?

Even if you don't pay income taxes you may benefit from the Ontario Government's new Property Tax Credit Plan, but you must apply by filling in a 1972 Income Tax Return.

You'll find a special mauve claim form just for that purpose in the 1972 income tax kit. An explanation of the plan is right on the form.

The new Property Tax Credit Plan provides greater benefits for more-the elderly, roomers, boarders, and low income families.

If you paid property taxes or rent last

year, you may be eligible.

Pick up a tax return kit at any post office, if you haven't already got one. And send in both the tax return and the mauve claim form. But do it quicklyremember returns and claims are to be filed by April 30th.

Your federal District Taxation Office will be glad to answer any questions you might have.

The Ontario Property Tax Credit Plan: we thought of it, but we'd like you to get the credit.

Premonition Saved

Your driver's licence is important to you. Don't itsk losing it by failing to pay fines promptly.

New Ontario legislation which becomes effective Monday, April 2, 1973, stipulates that drivers comicted of an offence under The Highway Traffic Act and certain other statutes are liable to suspension of their drivers' licence if they fail to you the impose of fines.

Perhaps that sounds rough. But 100,000 motorists now owe about \$10 million in unpaid fines, and that's not fair to Ontario's other 3.6 million taxpaying motorists.

# For convictions on or after April 2:

or anter April 2: If you are convicted of an offence under The Highway Traffic Act. The Public Vehicles Act. or The Public Vehicles Act. or The Public April 2, you will be sent a notice of the fine and the payment deadline. If you fall to pay or make arrangements for payment, the court has the authority to order your licence suspended.

# For convictions prior to April 2:

prior to April 2:
If you are among the 100,000
motorists in Ontario who still
owe lines for convictions prior a
reminder. It will be sent by firstclass mail to the address indicated on your driver's licence,
Failure to pay within 15 days ca
